We are
PRIME CARE
NURSING SERVICES

**Bringing
Healthcare
Home**

We provide care for at home patients for as long as they need us. From a one time visit, to twenty-four hours, seven days a week.

Sometimes just a little assistance can help avoid a decline in health or independence. Others may need additional help to continue living safely at home. They could be recovering from injury, illness or surgery. We understand that individuals have specific needs, and PrimeCare specializes in designing a unique care plan for each and every client.

You have a choice.

- ✓ PrimeCare provides in-home services and personal care, which allows you the opportunity to enjoy the comfort of your own home.
- ✓ RNs and LPNs supervise all services and are available for consulting or problem solving 24 hours a day. We coordinate client care by maintaining open communication with the referring physician, the client and the family.

The PrimeCare Certified Nursing Assistant (CNA) provides services structured to meet the home care needs of most home bound individuals. Our training and experience helps to assist with activities of daily living. These are some of the services our CNAs are trained to provide:

- ✓ Assistance with grooming — shaving & hair care
